Are supplies being wasted ?

"We had a serious problem with janitorial, safety, and glove usage. Since we added the new secure vending system our usages dropped by almost half."

Gordon (Toledo, OH)

It's 8:00 a.m. Do you know where your tools are?

"After tracking our new consigned Inventory system for several months I was astonished to learn our overall inventory costs dropped by 27% year over year while our production increased."

Mark (Columbus, IN)

How about mission critical items?

"With our automated order system and preset alerts we stopped running out of critical parts saving us down time and eliminating expensive next day shipping charges"

Mike (South Bend, IN)
